

Do you know what I love so much about cheese? I'm constantly discovering new things about it. The thing is, the more I come to know about cheese and the more I interact with cheese professionals, the more I discover I still want to learn.

For our product development, cheese and material expertise is crucial. And you can always expect BOSKA – the world's only specialist in Cheesewares® – to go the extra mile. It's time to set up our virtual desks, put on our thinking caps, and establish the 'Cheese Academy'. This will be our platform for cheese expertise: especially on how to eat and prepare cheese, but also for knowledge sharing, our ambassador's stories, trips, innovations, pairings, videos, blogs – basically everything that's fun to know about or do with cheese.

From now on, we'll be sharing the knowledge and expertise of our ambassadors and cheese heroes online, through POS material, and at events. We want to help you wherever we can – on every shop floor and within every square foot – to teach consumers about how fun and delicious cheese can be. Cheese and sales expertise are the key to improving rotation in stores. Only those who share that knowledge and collaborate will reap the profits. Let this catalog, with our collections and expertise, inspire you. We'd also love to learn from you and together build up a massive bank of cheesy knowledge. Even if it seems like Swiss cheese sometimes, we'll fill up those holes – no problem!

BOSKA'S ★STORY★ SINCE 1896

At Boska Holland we've been crazy about cheese for over 100 years! It all started near Gouda, home of the original Gouda cheeses, where Willem Bos made his first cheese tools for local cheese farmers. From that day on it's been our family tradition to inspire you on your journey through the delicious cheeses of the world. Enjoy life, explore cheese!

THE WORLD OF BOSKA

We know cheese

We've been crazy about cheese for four Bos generations. In 1896, blacksmith Willem Bos made his first Cheesewares® for the cheesemakers in Gouda. Ever since, we've let our fans all over the world discover the secrets of cheese, and cheesemakers, retailers, and consumers have inspired us to consistently develop innovative products, which, as of 2016, we sell in over 90 countries.

Get inspired and sneak a peek into our kitchen. Discover what we've created. It will open the doors to a whole new world.

Professional Cheesewares®

Our roots lie in Cheesewares® for cheese professionals. From the cheesy heart of the Netherlands, we work closely together with cheesemakers and cheese sellers. We help them to cut cheese efficiently and present it beautifully in their stores.

Find out more about our Cheese Shop Solutions on page 6.

COLLECTIONS

The BOSKA assortment is broad and diverse – and it offers the perfect solution for every cheese lover. We've presented them in four collections: Pro, Life, Dutch, and Explore. The collections vary in price and execution – from basic to luxurious. Where and how do they make a difference? You'll read more about the Life, Pro and Dutch collection later on in this catalog.

CHEESE BRAND BUILDERS

Are you searching for an original present for your clients or employees? Do you want to have our Cheesewares® with your own logo? They are true brand builders.

We also develop custom Cheesewares® for businesses, gadgets for goodie bags, eye catchers for mailings, and must have collector's items for end of year presents.

We even work together with retailers and mono-brands to develop complete co-branded product lines. We won't back down from any marketing challenge. With Cheesewares®, you build Cheese Brands.

Do you want to set your brand apart from the rest? Get your kicks on pages 40-43.

There's more and more to know about cheese – in particular, about its preparation and presentation. However, those who know how to present cheese attractively and those who know about our Cheesewares® and how to use them will have the lead in sales.

In our Cheese Academy in the Netherlands* – our very own cheese lab – we are accumulating academic, culinary, and practical knowledge, which you can instantly benefit from! For example, we teach about cheese making, recipes, materials, products, and applications. We give tailored workshops and training sessions where you can use our products yourself. All of your senses will rejoice. Have yourself a nice slice of advice!

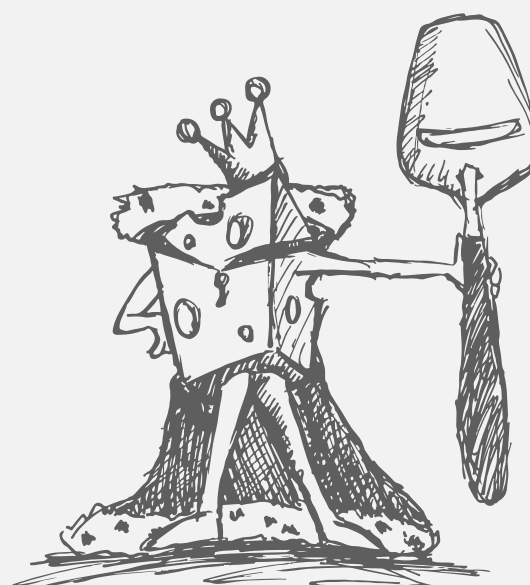

* in the future, countries outside the Netherlands will be able to join our Cheese Academy

CONCEPTS & DISPLAYS

We understand retailers like no one else: it's a constant battle for space. With our presentation systems, we'd like to help you get every penny out of every square foot on the shop floor. Summer vacation? Festive holidays? With a good presentation and placement, getting those extra sales is easy as pie. How? Put yourself in the customer's shoes – or present a lifestyle instead of a shelf of products.

The Pro Collection is positioned in the mid-range to high-end price segment and is aimed at home chefs who want professional results when cutting and preparing cheese. They're culinary explorers, and they seize every opportunity to inspire their guests.

HOW

The Pro Collection consists of beautiful high quality products. These eye catchers are made of durable materials, such as cast iron, slate, marble, and stainless steel. Innovation, design, and quality typify the Pro Collection. It's sharp, stunning, and stylish.

WHAT

Some examples of our high quality products in this collection are the revolutionary Fondue Fuel Safe & Disposable, the Hervé Mons series, and the Cheese Slicer Milano. The Cheese Slicer Milano is one of BOSKA's most well-known products, because it's been named the best tested cheese slicer many times over. Other Cheesewares® in this collection are the Monaco series of knives, the tapas boards made of black ceramics, and the famous ToastaBags®.

PRO
COLLECTION

This is the ultimate set of cheese knives – even for pros. It was designed together with the famous French cheese affineur Hervé Mons. They're handmade and lie perfectly in the hand due to the superbly balanced handles that let you cut and slice with no resistance.

WHY

It doesn't get any Dutchier than these quirky cheese accessories. Doesn't matter where in the world you live, everyone will tell you they're 'typical Dutch' – and they'll have a big smile when they say so. These are the ideal gifts for those who love cheese, fromage, or queso—with a quirky twist.

HOW

We've transformed a few BOSKA classics into a typical "Dutch" design with cows and clogs.

WHAT

The tapas fondue set in cheesy yellow is also suitable for a sweet brown chocolate fondue. Handles with a fun cheese hole design make it instantly clear what these tools are made for: cheese. With the party pic sets your party starts straight away.

CUSTOM MADE FOR SPIELHOFER

Not everyone has a cheese curler yet, and so not everyone can enjoy the Tête de Moine. The fact that these Cheesewares® are the key to more sales made Swiss cheese manufacturer Fromages Spielhofer SA put on their thinking caps. Together with BOSKA they developed a plastic, disposable cheese curler in a very compact packaging that fits efficiently in the cheese counter. This entry-level model, the Fleurolle cheese curler, is now sold together with their cheese.

Not only did Fromages Spielhofer SA manage to lower the barriers to purchasing the Tête de Moine cheese, but they also stimulated repeat purchases and increased their market share by opening up the Tête de Moine experience to a broader target market. Smart thinking!
