60. Atlantic 2000

*Please Note: Colour representation may vary according to photographic lighting conditions and is as accurate as modern printing processes allow.*

# Mosaic

# Mosaic

*New range for 2018.*

---

## *Be creative.*

Long-established crafts have been used for many centuries to add a splash of colour or a textural point of interest to interiors.

Echoing the hand-made story of mosaic as a craft, the reactive glazes of Mosaic produce a variance in effect and colour, so every piece retains a unique character. Although it looks hand-crafted, Mosaic is tough. Tough enough to stand up to everyday use in a professional kitchen environment.

Choose from five colours: The subtle tones of Grey and Taupe have been created to complement the colours of Evo and Harvest Linen; the bolder colours of Blue, Coral and Green have been chosen to lift understated or white tableware by adding a splash of bright colour.

Mosaic is available on a selection of plates and bowls to showcase today's menus and can be easily incorporated into an existing tableware setting. Slot in a couple of plates or bowls to make a big difference to the tabletop.

## **Your peace of mind.**

# Fine China: Rose

# Rose

*New range for 2018.*

---

## *Afternoon Tea perfection.*

The quintessential floral band has been given a modern shabby chic makeover with Rose. The delicate design has an edgy feel, updating a traditional floral decoration for the 21st century.

Rose is available on a suite of beverage items from Precision, including an elegant footed cup. The fine edge and modern decoration combine to give a contemporary interpretation of the long-established English pastime of Afternoon Tea.

Rose is from the Dudson Fine China range, which combines the delicate qualities of fine bone china with the strength of vitrified tableware.

Industrial dishwasher and microwave safe, Rose will withstand the demands of a busy service in a professional kitchen.

### **We have confidence in our products.**

As part of our Fine China range, all items are covered by the Dudson Lifetime Edge Chip Warranty. (Ts & Cs apply.)\*

# Fine China: Foam

# Foam

*New range for 2018.*

## *Subtle texture.*

Today's chefs are looking for a new twist on plain white that does not detract from the clean, pristine finish white tableware provides.

The idea for Foam came from the patterns of tiny air bubbles formed in culinary foams. Reproduced in the decoration, the subtle white on white bubbled texture creates a point of difference, but still retains the white finish so loved by chefs.

Stylish and extremely practical in service, the textural finish of Foam negates any unsightly thumbprints on plate edges – a clear benefit during a busy service. Foam is available on a complete suite of items to cover an entire menu, including beverage.

Foam is from the Dudson Fine China range, which combines the delicate qualities of fine bone china with the strength of vitrified tableware. Industrial dishwasher and microwave safe, Foam will withstand the demands of a professional kitchen and a busy service.

# Finest Vitrified Tableware: Concrete

# Concrete

*New additions for 2018.*

---

## *Urban design.*

Concrete was designed in response to customer demand for tableware that would complement an industrial style of interior décor.

Concrete's soft grey complements a colour palette of neutral and earthy tones. The finish is reminiscent of polished marble and works beautifully with metals like copper and brass – both widely used to bring a little warmth to more functional or industrial interiors.

Concrete looks equally at home in a casual or fine dining setting and can be mixed and matched with Evo Ice, Pearl and Jet, or combined with Curve for a more limited colour palette.

Available on a selection of round plates and bowls, we have now added three sizes of square plate to the range for greater flexibility in service.

## **Your peace of mind.**

As part of our Finest Vitrified Tableware range, all items are covered by the Dudson Lifetime Edge Chip Warranty. (Ts & Cs apply.)\*

# Fine China: Precision

# Precision

*New additions for 2018.*

---

## *Engineered for fine dining.*

Precision is made for contemporary fine dining.

Following a lengthy consultation with chefs, the flat profile and fine edge were designed to showcase culinary creativity. Noticing an increase in chefs creating 'wow' presentations using the plate rim, and not just the centre, we have added two brand new plates that have been engineered to use the rim of the plate as a feature.

The angular style of the rim with its upturned lip is right on trend and has been specifically designed to invite chefs to use this space for extra impact. The angular theme has been extended to include four sizes of bowl, ranging in size from 10 to 46cl. The contemporary shape and fine edge complement its distinctive style.

Precision is from the Dudson Fine China range, which combines the delicate qualities of fine bone china with the strength of vitrified tableware. Industrial dishwasher and microwave safe, Precision will withstand the demands of a professional kitchen and a busy service.

# Finest Vitrified Tableware: Geometrix

# Geometrix

*New additions for 2018.*

---

## *Shaping up.*

Geometrix, with its quirky shapes of plate, bowl and tray is the perfect addition to any tableware service, and items can be chosen to draw attention to speciality or signature dishes.

The new D bowl, although a novelty shape, has a practical purpose. No need to use a knife, because food can be pushed against the straight edge and scooped up onto a fork or spoon. Ideal for bowl or street food, the D bowl combines inventiveness and usefulness.

Mix and match Geometrix shapes into any Dudson range, whether plain white or decorated, for a different perspective on the tabletop.

# Evo: Granite, Sand, Jet, Pearl & Ice

# Evo

*New additions for 2018.*

---

## *Character born from tradition.*

Evo has been designed with the appearance of hand-thrown pottery. The variance in colour makes every piece unique. Its homely charm adds a touch of warmth to any tabletop.

Although it may look hand-crafted, Evo is supremely practical. The range includes flatware and holloware, as well as a selection of bowls perfect for sharing menus and bowl food.

New introductions to this extensive range include three sizes of oval plate, a taster and a dipper, providing even more opportunities to mix and match.

Sand, Pearl, Jet and Granite. Add a touch of sophistication with Ice, a new contemporary colour available on a selected number of items.

Fine China: Neo

# Neo

*New additions for 2018.*

---

## *Classical and practical.*

Designed with professional food service in mind, Neo combines contemporary styling with practicality in use.

With a rolled edge for extra strength and durability on items like plates and pasta dishes, Neo is both no-nonsense and versatile. Beverage service is also covered, with a selection of stacking and bowl cups. Choose to match your style of interior and service requirements.

Brand new for 2018 is the Neo coupe shaped plate. Featuring a very flat base and designed for the latest styles in presentation, the new Neo plate is available in four sizes.

Neo is from the Dudson Fine China range, which combines the delicate qualities of fine bone china with the strength of vitrified tableware. Industrial dishwasher and microwave safe, Neo will withstand the demands of a professional kitchen and a busy service.

### **We have confidence in our products.**

As part of our Fine China range, all items are covered by the Dudson Lifetime Edge Chip Warranty. (Ts & Cs apply.)\*

*\* For full details and Ts & Cs, please see our current price list, call us or visit our website.*

# Cutlery

---

*Traditional to contemporary.*

From the classical to a modern hammered finish, there is a cutlery range for every style of interior and every dining occasion.

We have selected a number of patterns that complement Dudson tableware, so you are bound to find something to match.

**Ergonomically designed.**

Cutlery has to have the right 'feel' as well as the right look.

The weight and balance of a knife has been created so it is comfortable to hold when cutting.

The depth of the bowl on a spoon has been devised so it is efficient to eat with.

The prongs on a fork have been designed at the right length and shape to spear food without it falling off.

So, great cutlery design really does matter.

#### **Premium quality.**

All the cutlery ranges we offer are produced in high gauge 18/10 stainless steel. But what does this mean to you?

- 18% chromium content means it is hard-wearing.
- 10% nickel content means it has superior rust resistance and a shinier finish.

So, all of our cutlery is suitable for hospitality service and is industrial dishwasher safe.
